

Tender offer to acquire **TELVENT**

June 1, 2011

Schneider
 Electric

Important notice

The planned tender offer described in this presentation has not yet commenced. This presentation is not an offer to buy or the solicitation of an offer to sell securities. At the time the planned tender offer is commenced, Schneider Electric S.A. ("Schneider Electric" or the "Company") will file a tender offer statement on Schedule TO with the Securities and Exchange Commission (the "SEC"), and Telvent GIT, S.A. ("Telvent") will file a solicitation/recommendation statement on Schedule 14D-9 with respect to the planned tender offer. The tender offer statement (including an offer to purchase, a related letter of transmittal and other tender offer documents) and the solicitation/recommendation statement will contain important information that should be read carefully before making any decision to tender securities in the planned tender offer. Those materials will be made available to Telvent's stockholders at no expense to them. In addition, all of those materials (and all other tender offer documents filed with the SEC) will be made available at no charge on the SEC's website: www.sec.gov.

Forward-looking Statements

This presentation contains forward-looking statements. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by terms such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "potential," "should," "strategy," "will" and other words of similar meaning. The forward-looking statements are based on Schneider Electric's beliefs, assumptions and expectations of future performance, taking into account all information currently available to the Company. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us or are within Schneider Electric's control. Such factors include, but are not limited to:

- intense competition in, and diverse political, legal, economic and other conditions affecting, the markets in which the Company operates;
- the Company's ability to develop new products and services and adapt to changes in consumer preferences;
- the Company's ability to identify external growth opportunities, integrate acquired business successfully and achieve expected synergies;
- the Company's ability to attract and retain qualified management and technical personnel;
- potential products liability claims;
- the Company's ability to successfully comply with environmental regulations and standards in the markets in which it operates;
- breakdowns or significant interruptions in the Company's information systems, or difficulties in deploying new information systems;
- unfavorable interest rate and foreign currency exchange rate fluctuations;
- unfavorable fluctuations in energy and raw material prices, particularly steel, copper, aluminum, silver, lead, nickel, zinc and plastics;
- counterparty, liquidity and equity risks;
- changes in the laws and regulations of in the markets in which the Company operates;
- the Company's ability to protect its intellectual property; and
- costs and liabilities the Company may incur in connection with litigation.

This list of factors that may affect the Company's future performance and the accuracy of any forward-looking statements is illustrative, but by no means exhaustive. The forward-looking statements contained herein speak only as of the date hereof. Except as required by applicable law or the rules and regulations of any stock exchange on which its securities are listed, Schneider Electric expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained in this presentation to reflect any change in its expectations or any change in events, conditions or circumstance on which any forward looking statement contained herein is based.

Presentation of Telvent and strategic intent

TELVENT is a leading software solutions provider for efficient management of infrastructure

Business description

- 1 A leading **IT software and automation solutions** company
- 2 Specializing in **high value-added** solutions for **real-time** management of mission-critical **infrastructure**
- 3 Providing customers with: increased **reliability and flexibility of distribution**, and energy and operational **efficiency** of infrastructures

Sales and adjusted EBITDA (in €)

As reported by Telvent – non-USGAAP

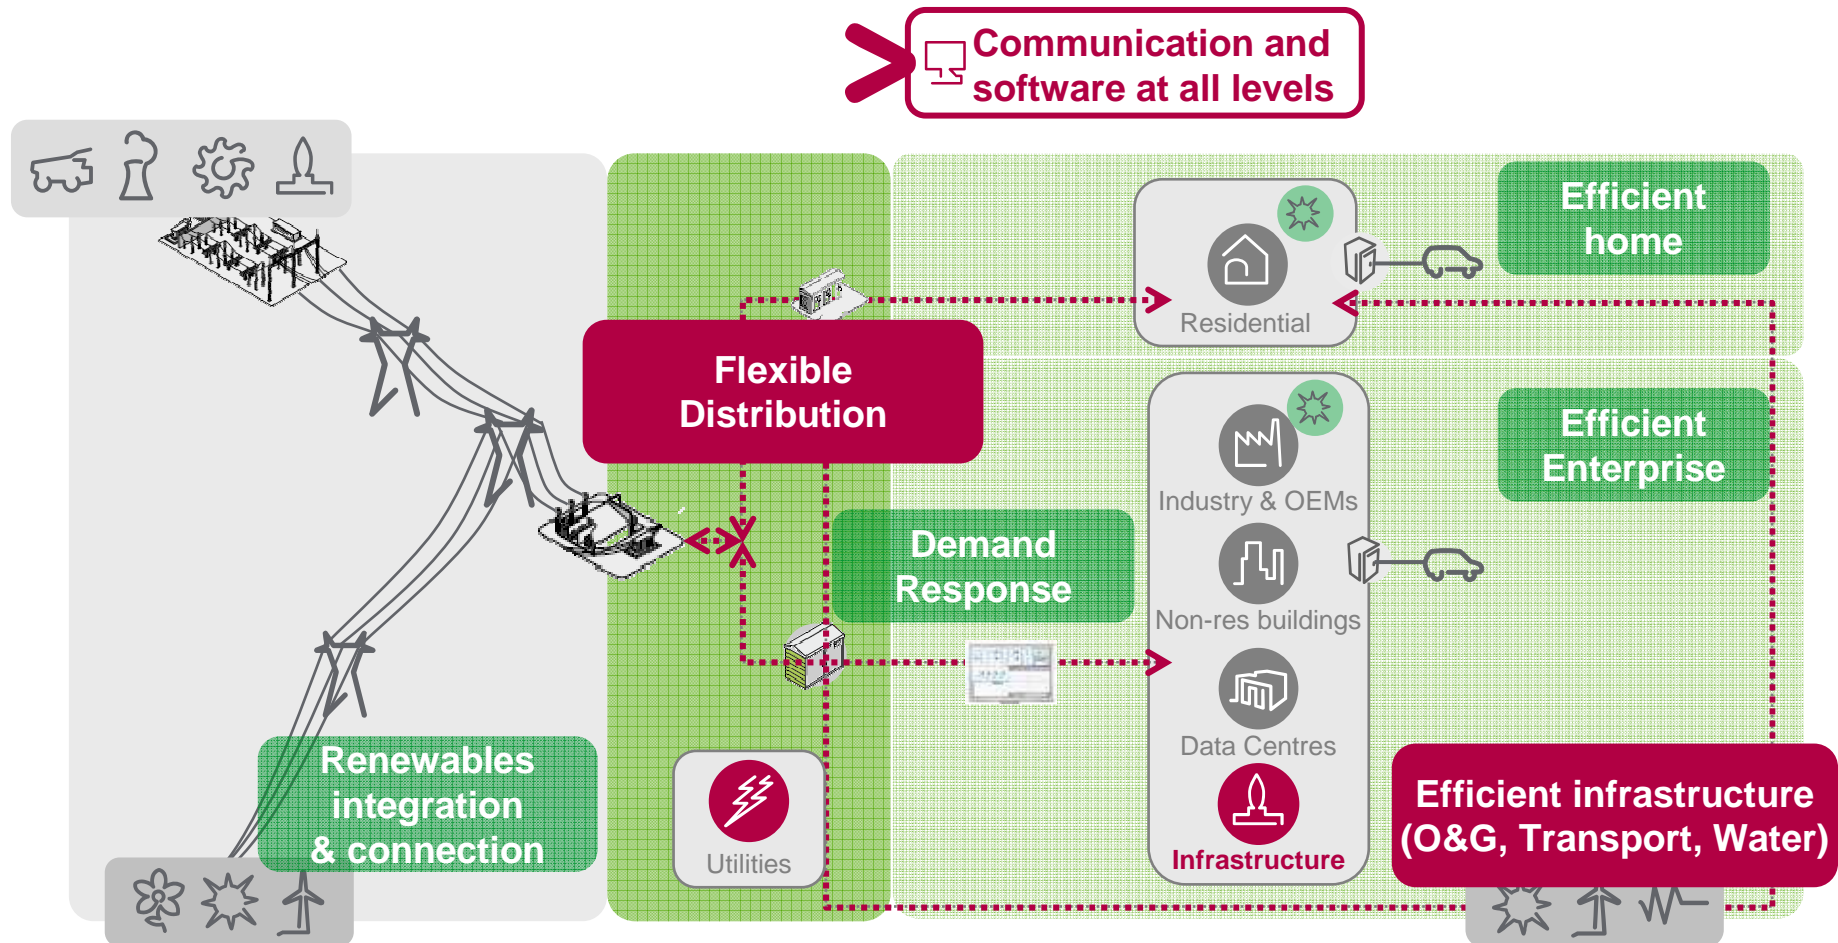

2010 sales by segment

2010 sales by geography

Integration of smart devices and software to drive efficiency of mission-critical infrastructures

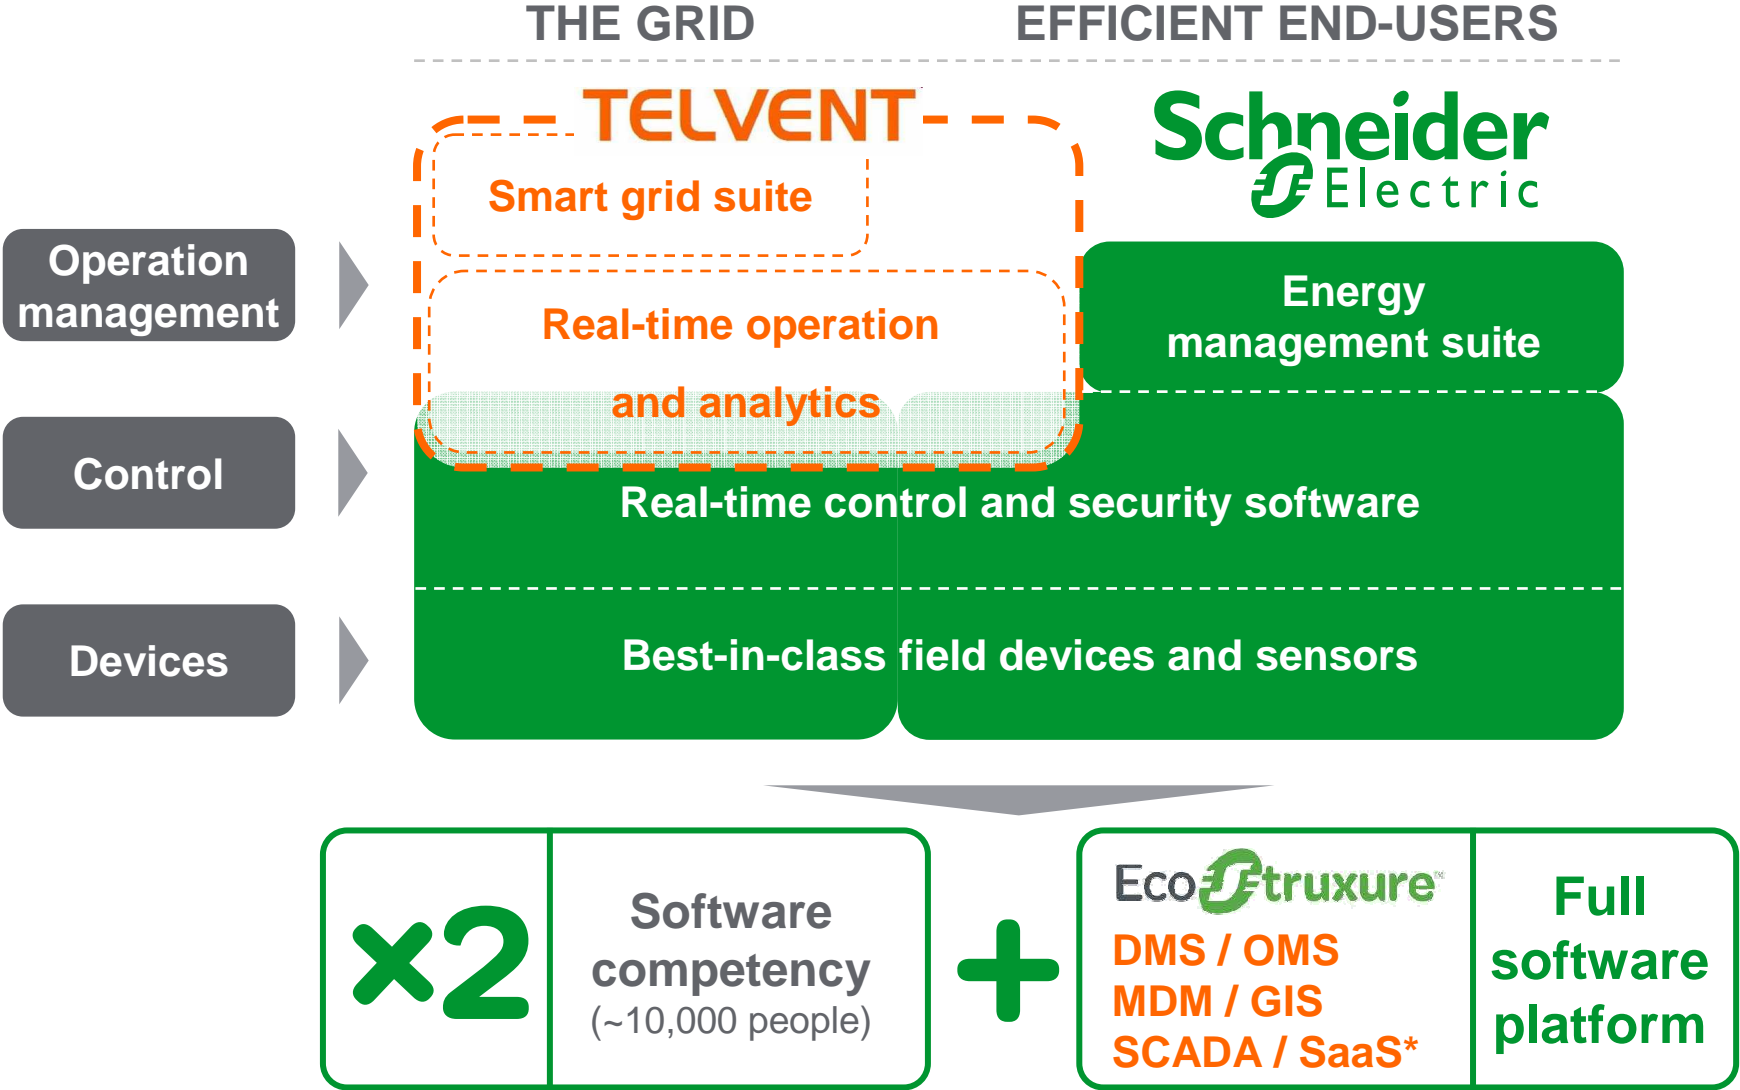

Fields where Telvent improves our position

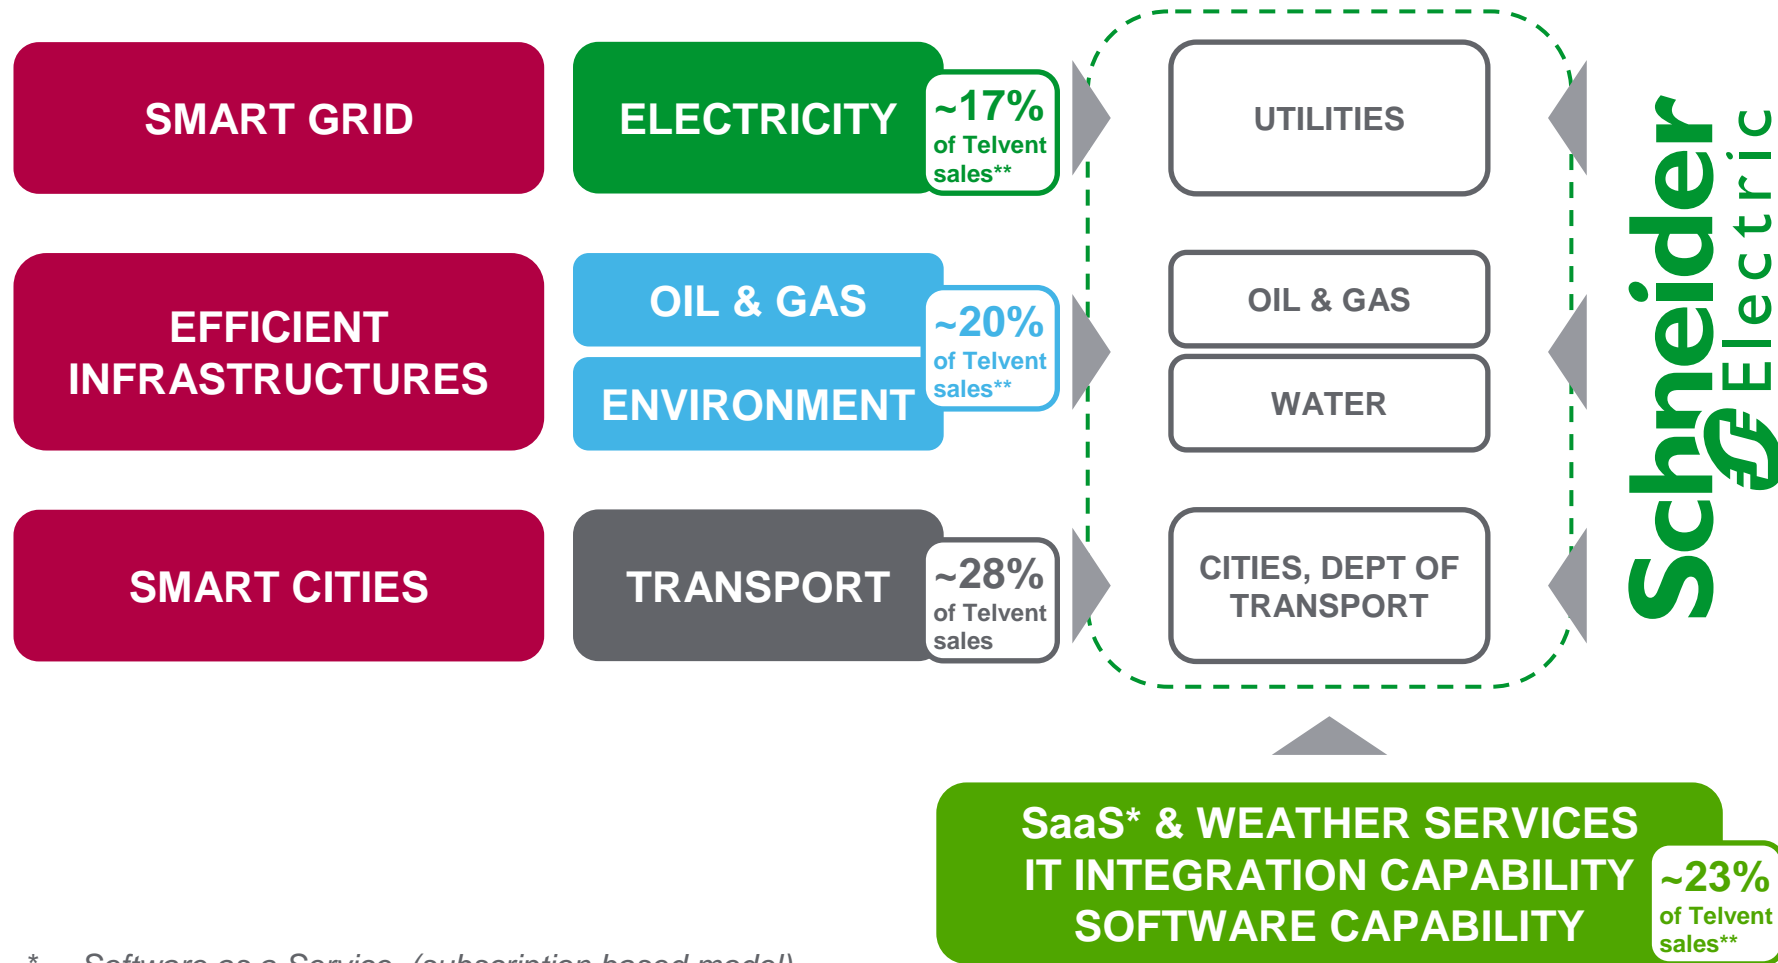

Other key fields of the smart grid for Schneider

Software capability of Telvent complements and integrates with Schneider Electric positioning

Telvent reinforces Schneider Electric's position in 3 key infrastructure markets

* Software as a Service (subscription based model)

** Schneider Electric's own estimates

We will propose a full smart grid solution, from field devices to management software

Global substation & feeder automation portfolio for Utilities

Substation Automation

Substation Control Systems

Feeder Automation

RTU, bay controller, fault detector

Protection IEDs

Protection relays 61850

SEPAM® MICOM®

Reliability & Efficiency

- Advanced Grid supervision
- Integration of renewables
- Optimize network operations
- Safety & Security

Real time software suite for global grid management

Smart grid suite

DMS*

MDM*

SCADA*

OMS*

GIS*

RTU*

Strong project teams

Delivery units: US, Canada, Spain, the Balkans

* See glossary on page 19

We will have a complete solution offering for Oil & Gas midstream

Integrated architecture for Oil & Gas applications

Integration

Power management

Automation

SCADA, Process PLC, SIL3 PLC, RTU, HMI, Drives

Security management

Efficiency & Productivity

- Improved business performance
- Optimized TCO
- Energy Efficiency
- Safety & Security

Real Time Oil & Gas solutions to optimize business process & control

IT suite for pipeline management

SimSuite

Downstream management

- Online fuel buying and selling analysis
- Real time trading platform

Strong project teams

Delivery units: US, Canada

We will have a complete solution offering in the water segment

Integrated architecture for Power, Control & Security

Integration

Telemetry & automation

SCADA & RTU

PAC, PLC, Controllers, HMI, Drives

Power management

Security management

Efficiency & productivity

- Network optimization
- Energy management
- Leak detection
- Water quality management

TELVENT

Information management solution to monitor & optimise water networks

Advanced applications

- Leak detection
- Quality monitoring

IT integration with enterprise systems

- ERP, GIS, CMMS...

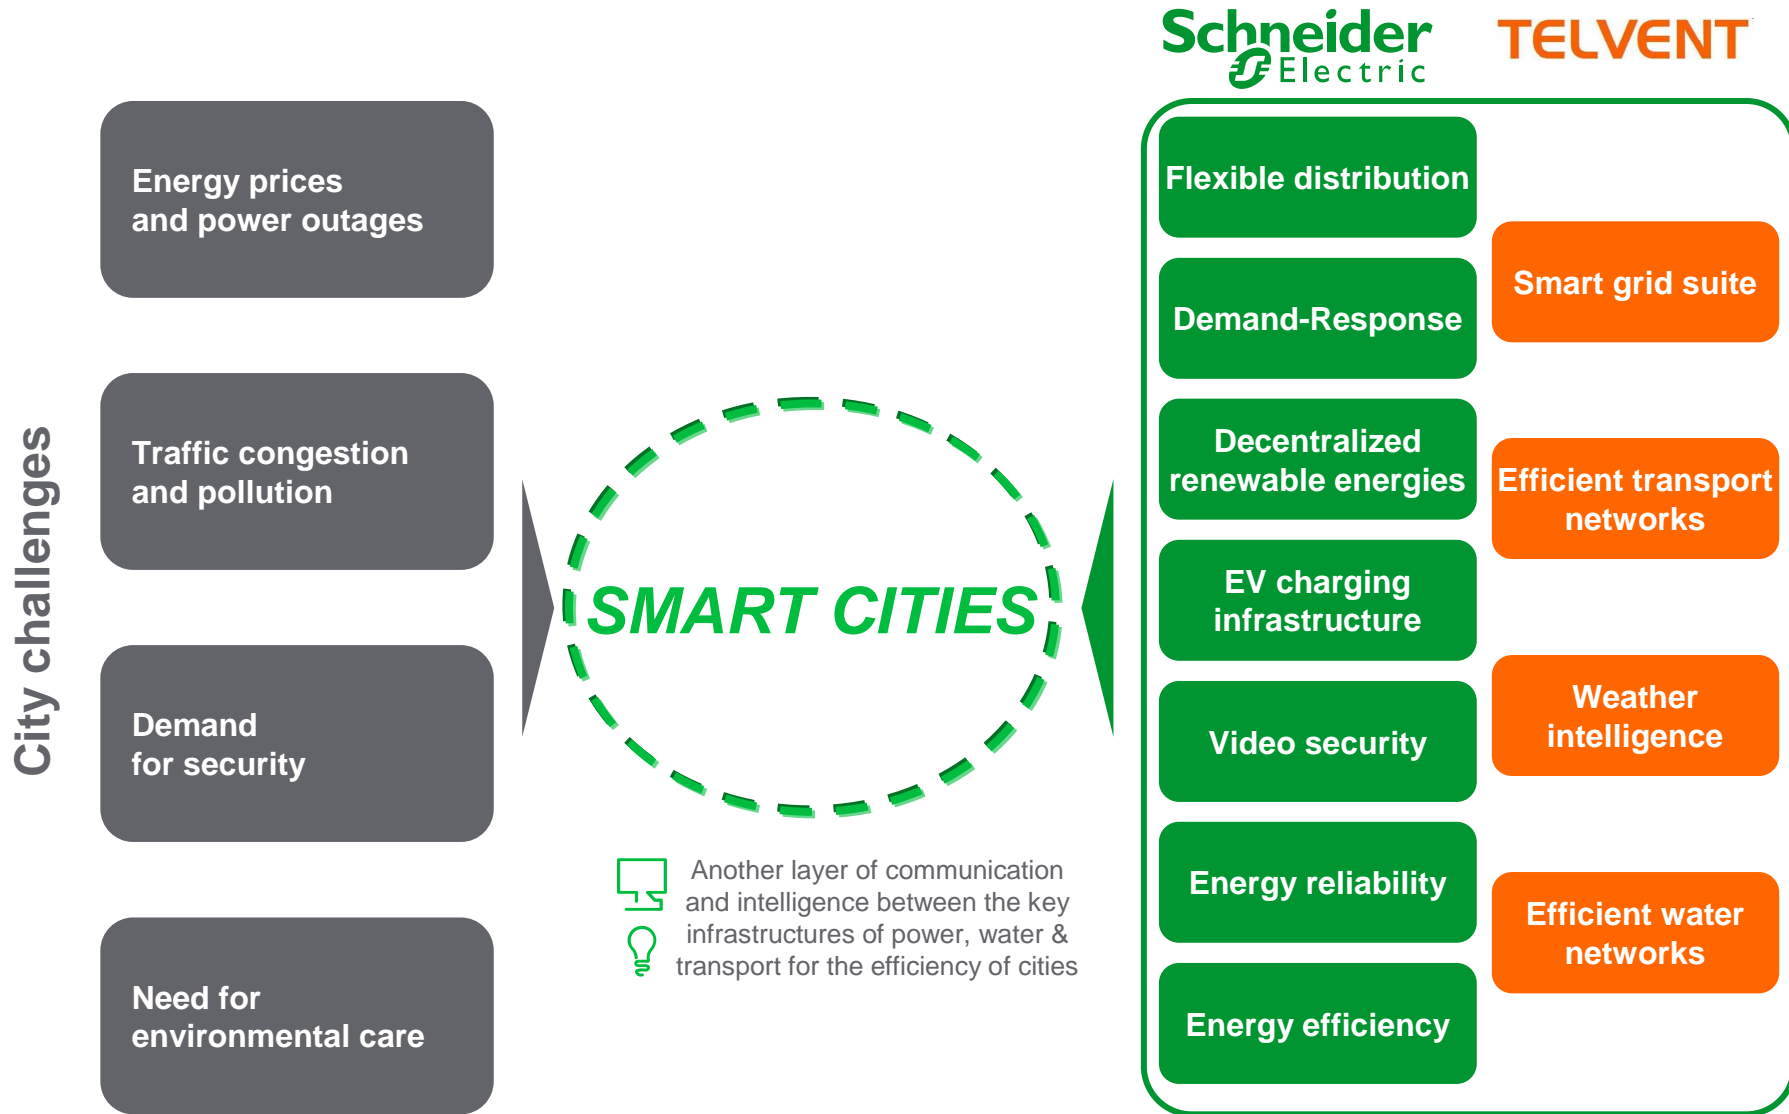

Integration with supervisory systems (SCADA)

Weather intelligence

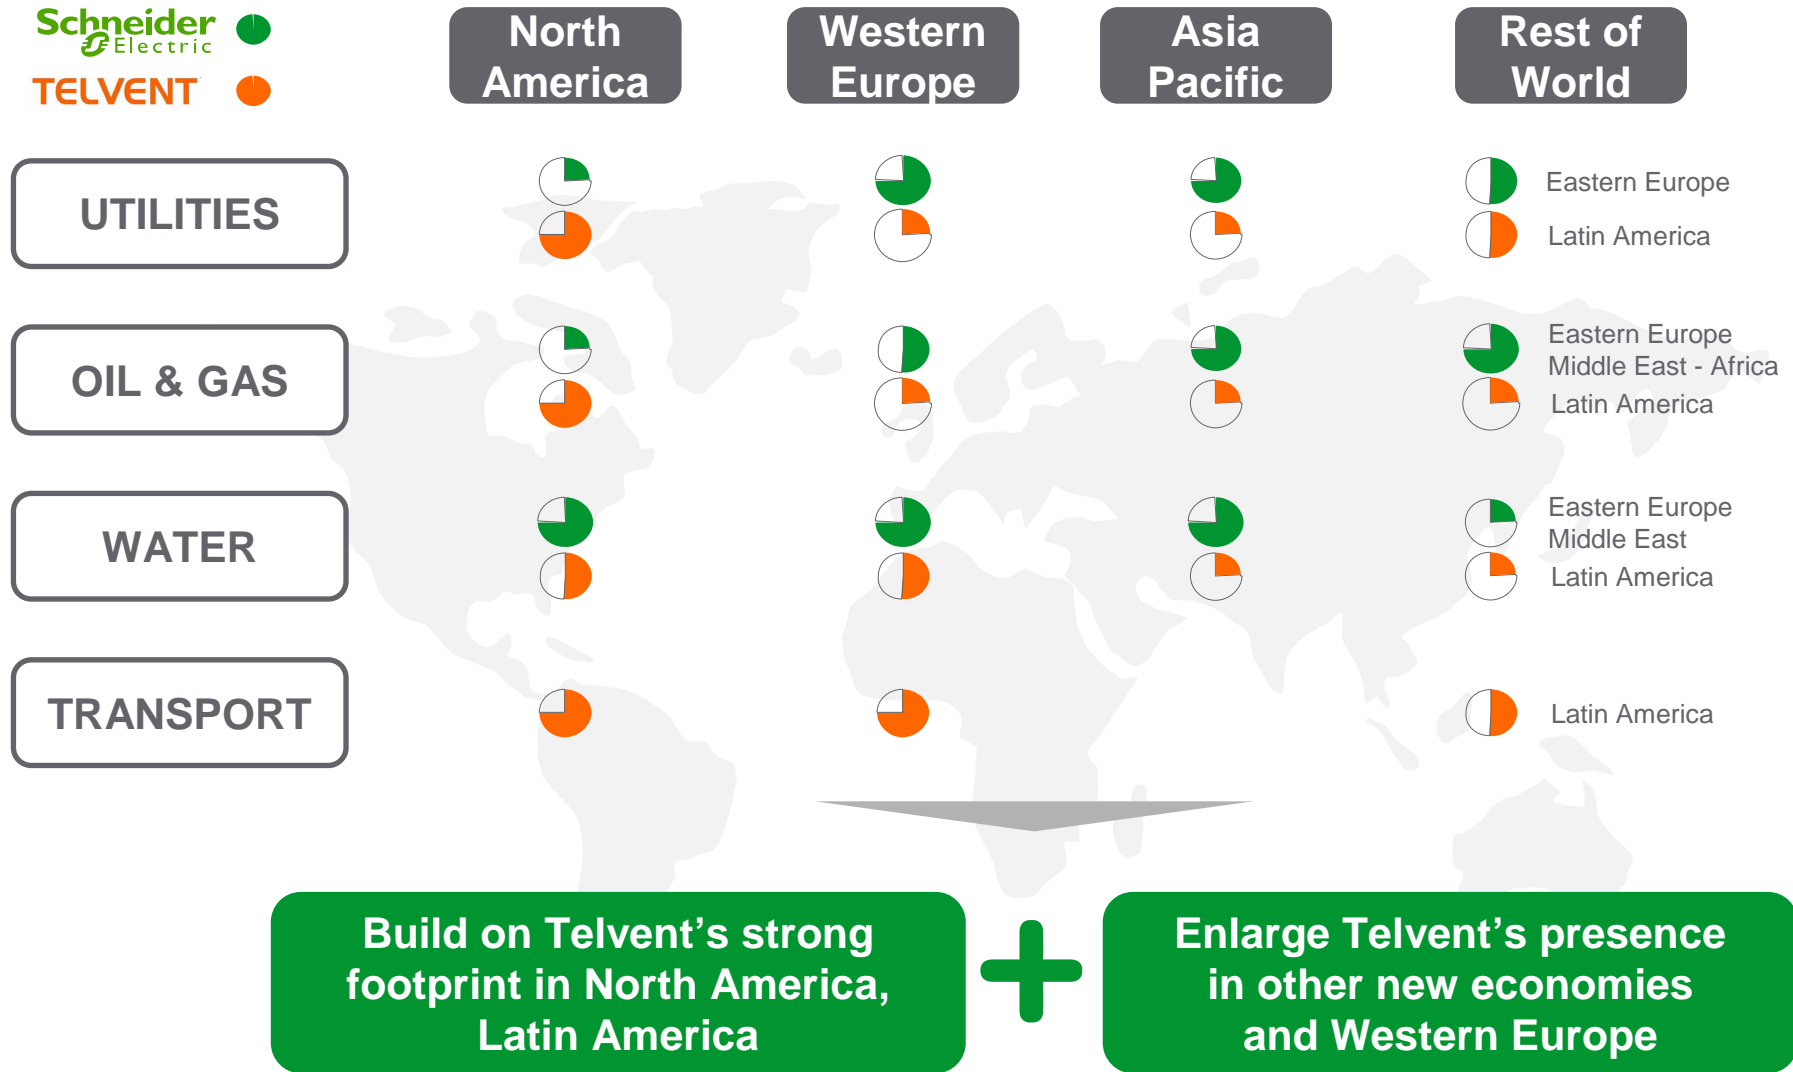

Strong project teams

Delivery units: US, Spain, Australia and Canada

Telvent will be a major contribution to our offers for Smart Cities

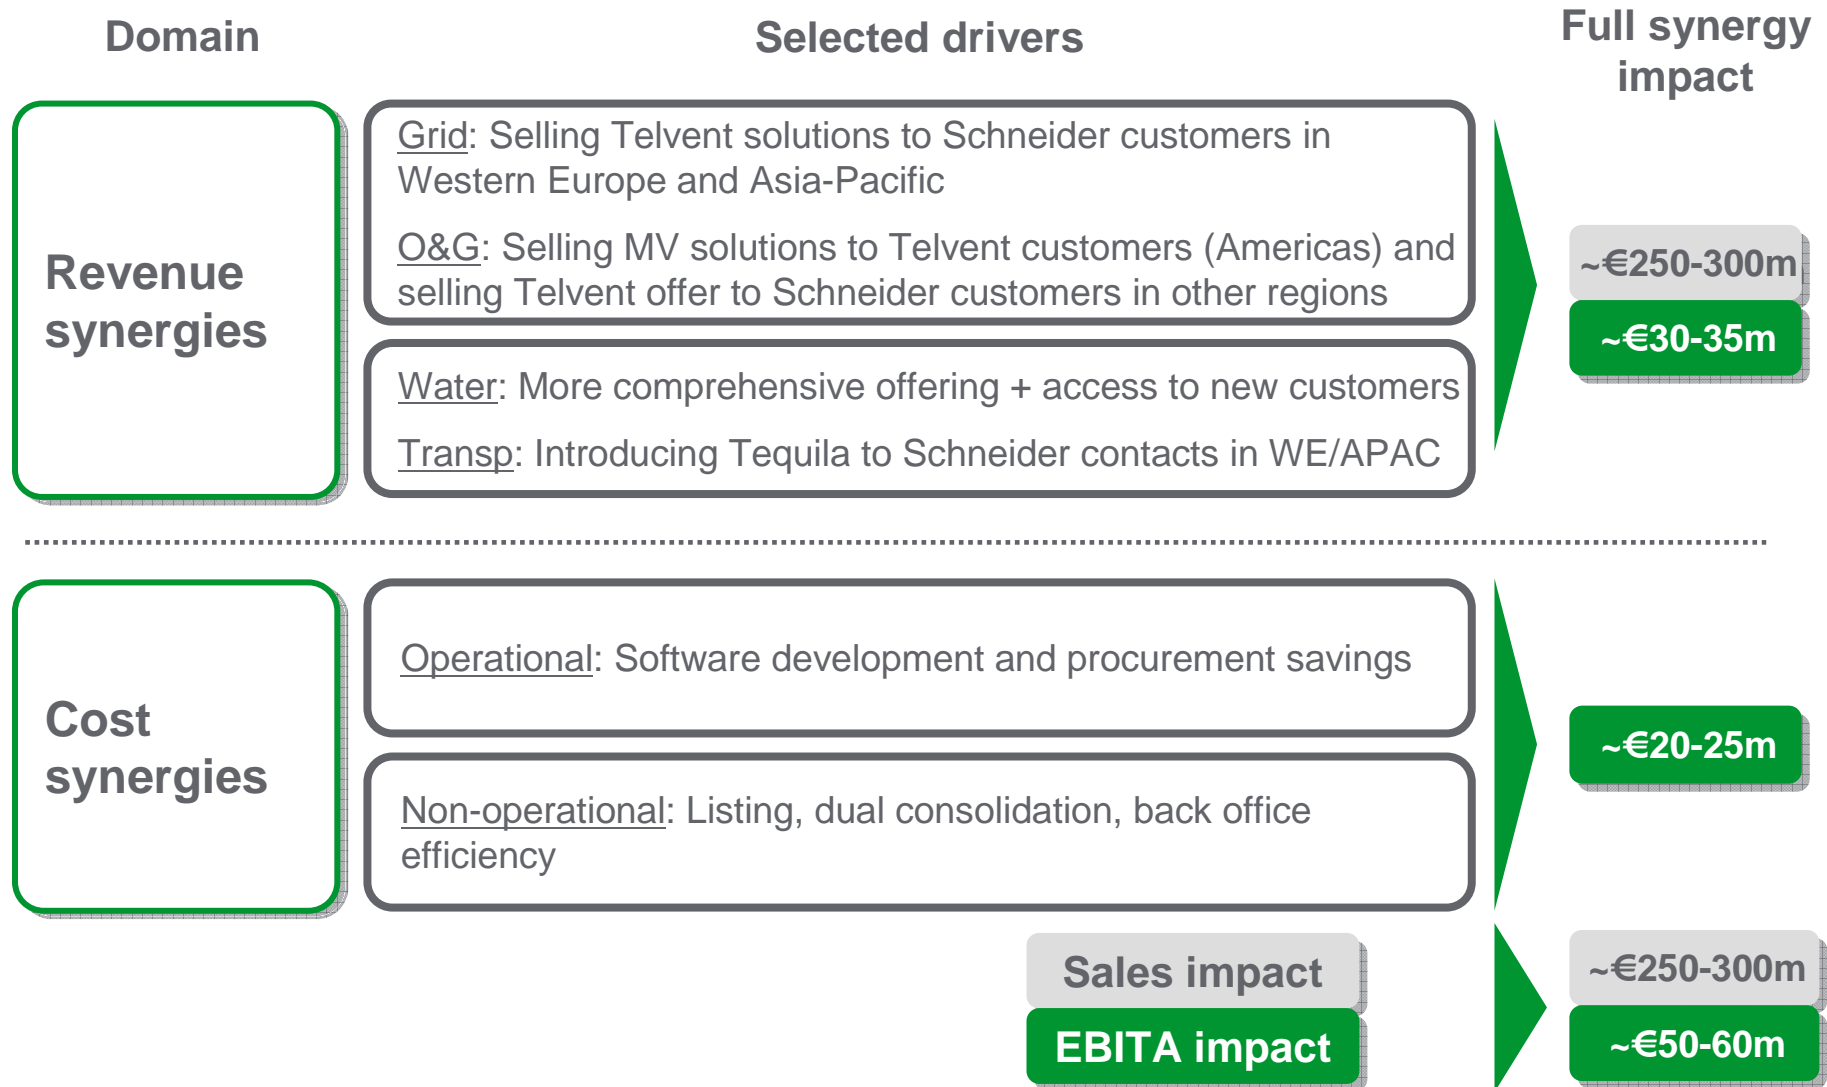

Strong geographical fit across most key markets

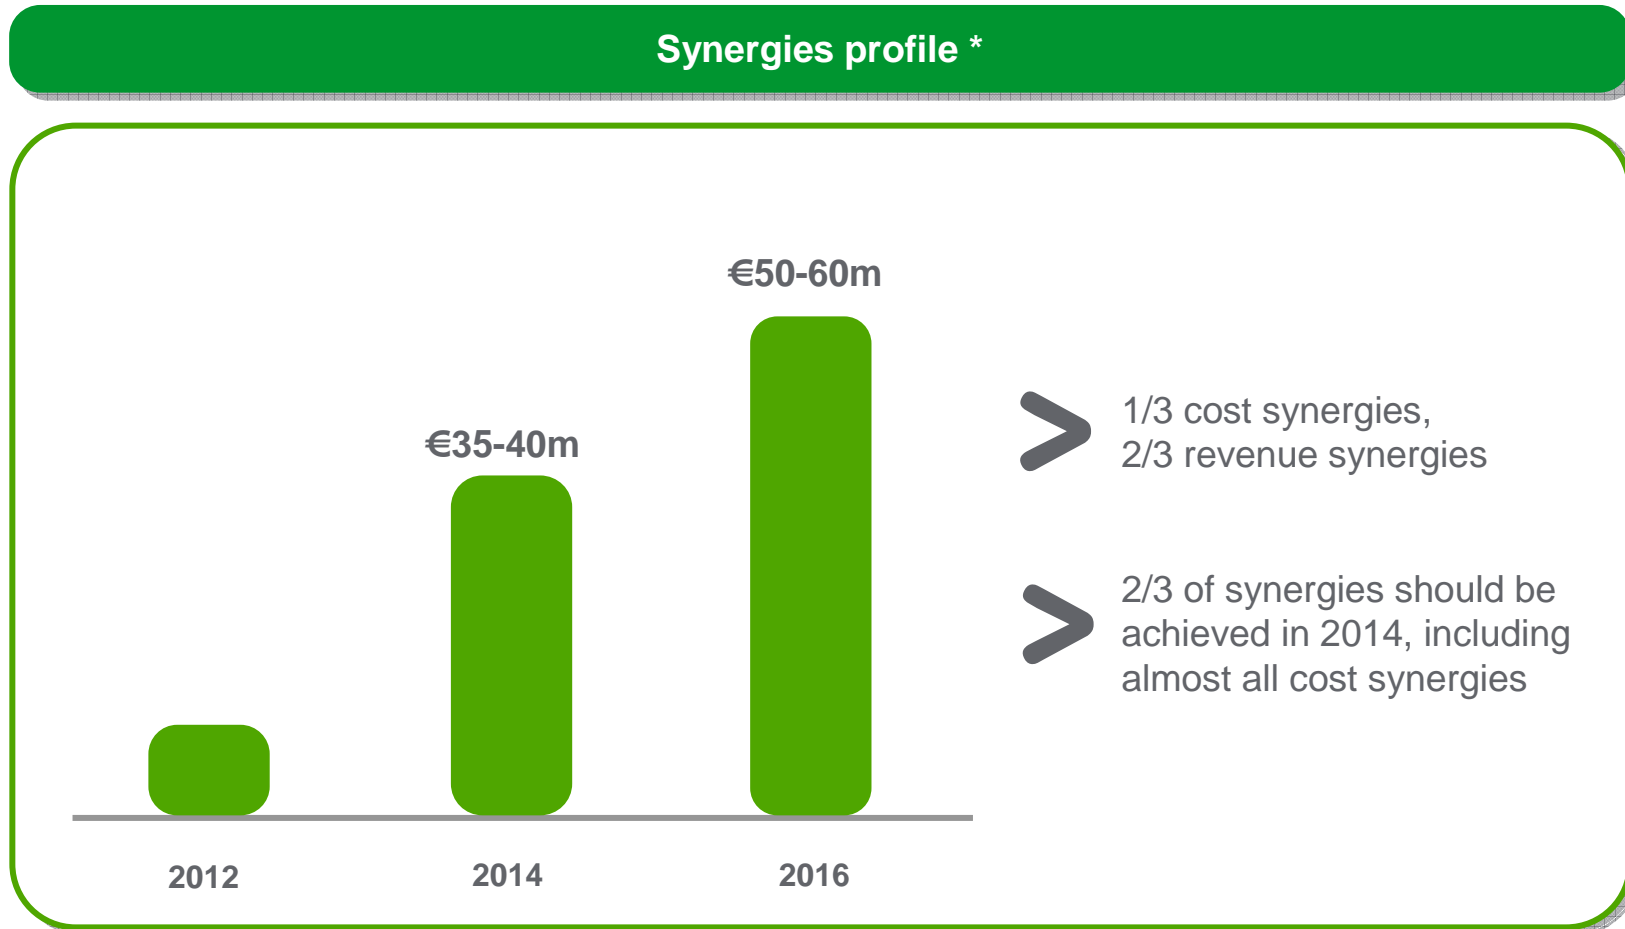

Synergies and
transaction details

Complementary business value and positioning will drive €50-60m of synergies

Approx. 2/3 of total synergies are expected to be delivered by year 3

* Before implementation costs of €20m in 2012 and €15m in 2013

Transaction details

- Abengoa and certain members of Abengoa and Telvent management agreed to irrevocably tender ~41.5% of shares
- Transaction approved by Telvent's Board of Directors
- Tender offer for 100% of Telvent shares at **\$40 per share** (36% premium to past 3m avg.)
- Enterprise value at 100%: **~EUR1.4bn**, including the purchase of Telvent's 5.5% senior subordinated convertible notes on an as converted basis

- Telvent will be kept initially as an autonomous unit
- Telvent will be reported under the Energy business

Attractive valuation

- EV/EBITDA multiple of ~12x based on 2011 consensus
- EPS accretion* from year 1
- Return On Capital Employed above WACC in year 3

* Before implementation costs

Estimated timeline

- Tender offer launch: mid-June
- Squeeze-out process post tender offer

- **End of tender offer and closing expected in Q3 2011**

Conclusion

Strong global player in smart grid

Leading provider of solutions for efficient infrastructures

Reinforced project, software and service capabilities

A synergetic and value creating transaction

**Schneider Electric + Telvent:
a very powerful proposition
to utility & infrastructure customers**

Appendices

Glossary

- DMS: Distribution Management System
- OMS: Outage Management System
- MDM: Meter Data Management
- GIS: Geographical Information System
- SCADA: Supervisory Control And Data Acquisition
- RTU: Remote Terminal Unit
- SaaS: Software as a Service

Definitions

- EBITDA: EBIT before net depreciation and amortization
- EBITA: EBIT before amortization and impairment of purchase accounting intangibles and impairment of goodwill
